BUSINESS**

January 2018

We specialize in heating, ventilation and air conditioning (HVAC). We work all over Sydney and beyond.

Our team consists of office staff, in-house engineer specializing in project design, estimating and drafting, project managers and teams of installers. This gives us the capacity of providing mechanical services to a vast array of clients. Our clients include: builders, architects, engineers and building owners among others

We work with many air conditioning brands but specialize in Daikin.

We currently have over 20 under construction projects in progress. These include office fit outs, building upgrades, retail, child care and residential amongst others. Below is a list of just some of our current and most recent projects...

Manly Wharf

Type: Commercial
Builder: Reward
State: In progress

Description: This project is the addition of an upper level over Manly Wharf. Ozone Air Conditioning are carrying out a full D&C for all mechanical Works. This includes new and upgrading of existing air conditioning, smoke exhaust, kitchen exhaust and all ventilation requirements for tenants including Aldi and The Manly Wharf Hotel while working in a constant live environment.

Christie Street, St Leonards

Type: Commercial Fit Out
Builder: Inscape Projects
State: In progress

Description: This project includes the fit out of an entire 9 story building. We have been engaged to remove existing mechanical services throughout the building prior to demolition and the reinstallation of new and existing to suit the new layout.

Novatel Rockford, Darling Harbour

Type: Commercial Fit Out
Builder: Reward
State: Completed January 2018

Description: Ozone Air Conditioning were engaged for the upgrade of air conditioning to 230 hotel rooms. This included replacement of all units, controls (upgrade to BMS compatible), upgrading of control valves to modulating for maximum efficiency and all electrical, grills and drainage. The project was completed on a very tight schedule.

Pitt Street, Sydney

Type: Commercial
Builder: Reward
State: Approved – Begins February 2018

Description: Ozone Air Conditioning are very proud to be awarded the contract to upgrade an iconic Sydney building. The 13 story building will receive a back to base make over with an entirely new mechanical services upgrade. This includes 100 units on a Daikin heat recovery VRV system. As with previous projects with this client there is a very short turn around for a project this size and we hope to deliver another successful and on time project.

Parramatta Road, Summer Hill

Type: Industrial/Commercial
Builder: Private Client
State: Completed December 2017

Description: This unique project consisted of two Daikin VRV systems to a warehouse. All units, ductwork, pipe, cables and drainage were exposed for viewing and a very high workmanship was expected and delivered.

Alfred Street, Milsons Point

Type: Childcare

Builder: Currenti Constructions

State: Approved – Begins January 2018

Description: Ozone Air Conditioning have been engaged for the D&C package to provide mechanical services for the newly built childcare. This is in an existing commercial building and will include 14 units on Daikin VRV with pre heated and cooled fresh air throughout. Works to commence mid January 2108

Cuzco Street, South Coogee

Type: Residential

Builder: M&G Building

State: In progress

Description: This residential under construction includes a Mitsubishi VRF system with bulkhead units throughout the house serving each room. Two separate system proving a more efficient system.

Hopetoun Avenue, Vaucluse
